

# COMPANY SUSTAINABILITY POLICY

Name of company: Churngold Construction Holdings Limited

Incorporating: Churngold Construction Limited

At Churngold Construction we believe that working in a more sustainable way is the right thing to do, not just for our Business and Employees, but for our Clients, Stakeholders, Communities and also the Planet. Therefore we will look to carry out our business in line with the following key principles.

## Sustainability Policy Statement

We will look to work as efficiently as possible to minimise the use of all our resources.

We will look to maximise the use of recycled materials.

We will look to minimise the amount of waste and have to dispose of.

We will look to work with the most local suppliers to reduce travel distances on all our projects.

We will look to place our labour on the nearest project.

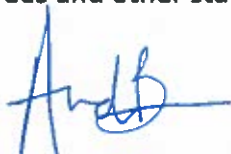

We will look to work regularly with local community groups to assist in local charity based initiatives.

We will produce a Sustainability Action Plan whenever we are a Principal Contractor.

We will measure our Carbon Footprint so as to identify how we can reduce it wherever possible.

Our policy will be subject to regular review by management and any changes will be brought to the notice of employees and other stake holders as soon as practicable.

Signed:

Date: 12 July 2016

Managing Director Churngold Construction Limited
