

Javelin Park

Project Description:

Javelin Park is an out of town development opportunity adjacent to the motorway with planning permission to build various different types of warehouse facility.

Churngold's involvement in the project included bulk earthwork and groundwork associated with the installation of an access road, footpath and any associated drainage and lighting.

Key Works carried out:

Earthworks: Reduce level for road surfacing and preparation works for drainage, low voltage ducting and lighting posts.

Groundworks: Ground for kerb edgings prepared and kerbs laid for footpaths and road surfacing. Yard gully's and manholes laid complete with associated pipework. External paving finishes and lamp post installed.
